2. Executive Summary and Data Alert

- Overall score: 7/100, AT RISK. One AMBER (Curriculum 5); nine RED (all others). Only partial UG curriculum data was submitted; no other domain data is available for this assessment cycle.
- UG alignment is the one positive finding: 11 of 12 UG programs (91.7%) are restructured to CCFUGP. Only one UG program remains unaligned. This is one of the stronger UG alignment rates in the Haryana state university cohort.
- 18 PG programs are recorded but the count of aligned PG programs was not submitted. PG curriculum reform position is entirely unknown and defaults to zero in this assessment.
- Data for 9 of 10 assessment parameters is absent. The score of 7/100 does not reflect the university's actual NEP implementation – it reflects the near-total absence of submitted data. DCRUST must submit complete data immediately.

CRITICAL: Incomplete Data Submission

Only UG program counts were submitted. Data for 9 of 10 parameters – including ABC, MDC, SEC, VOC, environmental, community, research, patents, placement, and alumni – is entirely absent. The university cannot be meaningfully assessed and cannot prepare credible NAAC, NIRF, or UGC submissions until all fields are populated. Submit all missing data within 14 days.
